Grade Level: 3 - 8

Customer Reviews

If you are looking for a book with samples of Native American designs, this is a good one. The designs are fairly simple but still complex enough to look pretty when colored or used as patterns for other mediums.

There are seventy-one authentic examples of Indian design from Indian masks, beadwork, pottery, metal, stone, and wood selected and redrawn by Paul Kennedy. With all the material identified, sandpainting of gods, battle scenes, geometric designs, birds, flowers, animal figures, more, by Eskimo, Northwest Coast, Pueblo, Navajo, Plains, Chippewa, and other tribes are within this book.

I was a bit disappointed in the book. I expected it to be thicker than it was and a little more detailed

in the drawings. All in all I did like it. I wanted more content and a little more representation and more refinement in the drawings. It may be that I expected more than what got and that is why I am a bit disappointed in this book. Other books made by this company are better than this one was. It didn't meet the same standard as other books printed by this company.

Hard to color without researching what color belongs to start with (like the cover) and images hand-drawn rather than crisp. Love the source info when provided for the tribes.

This had great designs in it and they weren't so very tiny as some are. They were perfect for a friend who loves Native American anything, and she also likes to color. Came really fast.

Nice for the price! The only reason I gave it four stars is because some of the drawings are bigger like in a children's coloring book. However it is very nice, and it makes a great addition to my collection!

just what i wanted to get drawings to transfer to gourds. The designs are very orginal looking. I would buy again

Had to get away from the computer for awhile so this was a good and creative distraction. The coloring designs are great
