Blank Music Paper For Kids: 27 Manuscripts For Children's Fun Way To Practice And Learn Musical Notation

Synopsis

Your child will like this colorful Blank Music Paper for Kids. Each page looks very funny, and theyâ€™ll attract the attention of your child. Blank Music Paper for Kids has 27 pages and will make the hard practice of your child in musical notation easier. All pages are designed for children who are just start learning music and want to practice how to write musical clefs, notes, rests and other musical signs. There is different quantity of the staves in manuscripts. Manuscripts with three staves: The width between lines of the staves has comfortable space for little kids (three-four years old) They are also for any beginners without experience. Manuscripts with four and five staves are for children who have a bit experience in writing musical notation. Help your child to get fun instead of boring practice!

Customer Reviews

This book is a great idea. When parents start teaching their kids to read, they buy books with large print. Small children can read larger letters easier. This book uses the same principle. The distance between the lines are 8mm (for very small children 3-4 years), 7mm (for older kids), 6mm (more older) and 5 mm. Now kids with any ages can improve their musical writing skills without a problem. Blank Music Paper for kids is great it has cute little pictures that attract them to the book and that is when you can teach them. Perfect idea and I will use it in my musical lessons from now on.

I really like the manuscripts in this product. I find that they can be used by a variety of children learning to write music. Each order comes with three different manuscripts that have different line

distance for different ages of children who are learning to write or already have been writing musical notes. This product comes with 27 pages that are decorated with captivating pictures to gain the interest of children. I am impressed with how the creator of this product took into account the width space to match that for a child learning to write words and music. For instance, there are 3 different sizes to accommodate children from ages 3 and older. I found this product easy to use for the newest of beginners learning music. You can use these manuscripts for practicing writing clefs, notes, rests, and other musical notations. I like the fact that this product comes with both practice sheets for beginners and practice sheets for those who have been already practicing writing musical notation. Each page is sturdy, so that a child can hold onto the sheet and apply pressure with their pencil and the paper does not rip like other products. I would recommend this product to anyone wanting to teach children how to read and write music. These pages were specifically designed with the difference in distance between lines to write the musical notation unlike regular sheet paper from the music store that comes with one distance between lines, and is much harder for children new to writing.

This is a good idea and it makes complete sense to me. Why not increase the size a little bit so that children can learn better and it makes it less difficult for them to understand how it is supposed to be written. Good idea!
