## Customer Reviews

Attached is my silent and quick flip through video of the entire book of designs. I hope it is of assistance to you. My husband and I have started using Adult Coloring Books as a way to de-stress. I know that many crafts use the same part of the brain that one uses in meditation, so I wasn't surprised to read that many other adults were turning to coloring. I have bought several different types of books and I find that I like a lot of the ones by Creative Haven/Dover. I have found that my non-alcohol based markers and my gel pens all leak through this brand of book, so I am sure to place paper between the pages to keep the pages behind fresh and clean. I've found that freezer paper works really well for this purpose. The pages of the book are single-sided and are perforated

at the bound edge so you can remove the page to color or to frame afterwards. The pages are a bright white and have a decent pound weight - they are not flimsy. What is really nice about this particular book is that, if you chose to color the pages realistically, the author/illustrator has included a color guide for each of the 31 print included in the book. The birds are shown in natural habitat style outdoor settings but you can decide to mix it up and use any color you wish.
