Perfect as a teaching tool for all those who love the Harry Potter movies. I have students aged 10 and up who use it.

Great intermediate arrangements of the Harry Potter music. My students love this book and can't wait to learn the music! As a piano teacher, it's important to supplement the lesson books with music my students are eager to play, and books like this do the trick! Not for beginners, this book takes the intermediate student on a musical adventure where they play songs and in the end, love what they hear. I find it encourages them to practice because they enjoy what they're playing and look forward to finishing whatever piece they're working on. Super! Arranged very well for piano students who are ready for a challenge! Harry Potter -- Sheet Music from the Complete Film Series: Easy Piano

Having taken 9 /12 years of piano, but not played in 30+, I wanted music I could play to refresh my coordination as well as my skill on my newly turned piano that was purchased in 1948. I'm pleased to say these arrangements are perfect for regaining my abilities at the keyboard. When I master these and feel more confident, I will return to .com to purchase some more difficult arrangements. Thank you for having the easy piano series for the Harry Potter theme music available.

Overall, the book is great ... slightly more advanced than I was anticipating, and there were huge ink spots on several of the pages, but the music was still legible. I gave it as a gift and the recipient absolutely loves it!

This is a beautiful book with a great assortment of pieces! Unfortunately I assumed "Big Note" would mean much simpler versions. Some are fine but many are tricky either in tempo or rhythm and not for a beginning piano player. My grandson (9) loves the music and has doggedly stuck with it to learn his favorites, but it has been a challenge and probably more frustration than was necessary. Fortunately his older sister is also enjoying the book without the frustration. I will look a bit more closely next time I buy a book, but this one is definitely worth having.

Perfect "easy piano" music for a newer piano student. My son has a renewed interest in practicing now that he has 'cool' music!

My 9 year old loves H.P. and asked for this for Christmas. So far he has learned several songs from it. He really enjoys playing it. He feels like a lot of the songs are advanced for him, but he has found several that he can play very well. I'm sure as he progresses with his playing, he will feel confident with many more songs in this book.

Great collection of Harry Potter sheet music. Some of the music is very challenging with so many accidentals and some of the time signatures I have never even seen before but that is just the nature of the music. There are a number of songs that are at an EASY level. My son picked up Hedwigs Theme pretty quickly.
