This is a beginner's book on drawing Manga animals. It is a short book but gives all the basics on drawing in the Manga style and has room in the later pages to complete drawings that have been partially started but left unfinished. Good advice on practicing what is taught in each short lesson, it's a good stepping stone to more advanced drawing. No fancy tools are needed, just the book, a pencil and a piece of paper and perhaps a few colored pencils for following what the author has done in the lessons. Christopher Hart has done some very cute and appealing animals for the beginner learning to draw.

well it is not worth the price i can you that its very thin and does not really help much!!! i mean it is cute and all, but not many pages or details. The cover looked inspiring but i was a bit disappointed, was not what i expected, it okay i guess, i might give it as a gift to a kid...

This book is adorable. This book is bright and well done. There are a few steps for each "character". The animals vary from house pets to woodland type creature and others. Many different dogs and cats. They have pages with multiple dogs drawn and what their breed is. The same with cats. I feel that this book is great for the older range of kids, maybe 10+ but if you have a dedicated young artist, this is a fun way to try something new and work on your skills. The book is in color and the examples are perfect. Will continue to purchase these types of drawing books!

I bought this for my granddaughter who loves to draw. She really loved the book. There are lots of examples in the book on how to draw the different animals. Very clear instructions. Colorful and easy to follow along.

Want to learn how to draw super cute pets this book will give you samples and directions of how to draw many types of animals like breeds, backyard, sea creatures, and exotic animals with how to tips. Cute book to add.

Came a day early and I love this book the pictures are adorable can't wait to start drawing!!

What a fun little book! Easy instructions, adorable characters. My daughters and I are going to have hours of fun with this! A good price for priceless family time

I bough this book to use like a guide to face paint, however for me (begginer painter) is not good, I need something easier for me LOL. The book or seller are not guilty; if you are a experience painter, this book is useful for you.
