I ordered this book when I started taking formal piano lessons. I'm just in my first year (and I'm 50!) of lessons and I wanted to play hymns and gospel. I grab this book every time I sit down at my piano because I can follow the music and play the songs within minutes.

The songs are great and exactly what I was looking for, but the print is large (meaning a lot of page turning in some songs) and the music is very, very easy. Fortunately, all I use are the chords and the melody line, so the easy arrangement doesn't matter to me. However, if you are wanting an intermediate arrangement, this is not the book for you.

I like the selections in this volume and the ease to follow along singing and playing. Not as easy to turn pages and keep them flat in this format however, since many of the songs continue onto a third page.

Bought this book for "Amazing Grace". A beautiful rendition! It was played for a Christmas program. The songs are easy with uncomplicated left hand accompaniment.

My wife was able to read the music easy and was able to play the songs. with out a problem. would recommend for some one who has some who can play the piano but was not an expert.

My daughter is taking piano lessons, so I am very excited that one day she will be able to use this book. It's a little too advance for her now.

It is "very easy" piano--some songs almost too easy to even be recognized. Most are good though and I have played it easily.

Bought it for a student and I love it. Nice easy arrangements and a very good collection of hymns. It is a good buy.
