Customer Reviews

Same tablature Alfred Music has been selling over the years, just in a new package. If you are new to bass playing, this will get you in the ball park, but it is by no means note for note, in fact some of JPJ's bass lines are substituted with phrasing very similar to what he played, but they're not the lines on the CD. If you really want to learn the bass lines right, do it the old fashioned way like I did 35 years ago when I started playing, sit down with your bass and whatever format you listen to music on and play it over and over, and when you're done doing that, play it over and over again until you're sick of it, that's how most of our icons of modern music learned how to play.
