Customer Reviews

This format does not feel right for the kindle. It's to small. You have to zoom in a lot. The other thing is the shapes of the heads change a lot. The face will go round, to skinny and long to fat and short on the same step by step. Over all it's poor, but for a \$1 on kindle it's not too bad. Would not pay more then that

I've never felt so ripped off by a book before. I know it was an inexpensive book, but still. They could have easily fit all of its content on about 20 pages. There is one small picture per page with all of this white space around it. They don't even number the pages.

It certainly wasn't what I expected, but for the price, it was okay. If you have NO art/drawing experience, you may be disappointed, as there is no technical guidance or explanation. It is simply pictures of each step with no words at all. However, for my purposes, as an amateur artist, it will do. This was to be a gift for my 15 year old daughter, for whom I've also purchased a graphic tablet and

manga software, and this will now become a stocking stuffer. It isn't very instructive, but it is still useful for someone who doesn't mind using her brain instead of being spoon-fed.

Wonderful How-To book loaded with great large pictures of anime characters and how to draw each part step by step instructions leading into how to make a scene yourself. Beautiful illustrations within book and very well done by creators in making it from easy to difficult as children want to challenge themselves

A gift for an aspiring anime artist, the pictures on the pages of this book are very small and of so-so quality. There is a very big border of white around the small image, and this book is not very big to begin with.

Perfect for the price. No words, just some pictorial guidelines, but good for a basic idea if you're new to the anime/manga world. I received it on December 19th, and on the last page is the print date of the book. December 16th! Made to order, I found that pretty cool

Perfect for your teen, paperback book with easy illustrations for the beginner.

Got it a lot sooner than I thought. I can't wait to draw my own characters. Worth buying if you're into drawing anime.
