Manga For The Beginner Chibis: Everything You Need To Start Drawing The Super-Cute Characters Of Japanese Comics

Synopsis

The ultimate guide to creating chibis! They populate manga with chunky bodies, oversized heads, and huge expressive eyes. They're schoolgirls and schoolboys, magical girls and mad scientists, fairies and fighter princesses, cyborgs and sci-fi secret agents, bikers and bad samurais, robots and rebel leaders. They've even got chubby pets and zany monster sidekicks! They're chibis! Excruciatingly cute, highly stylized, and beloved in all manga genres (fantasy, magical girls, shounen, anthro, sci-fi, and more), without them, manga would barely exist. And now you can learn, step by step, how to draw virtually every chibi out there, how to "chibify" ordinary manga characters—and how to invent your very own designs! Covering facial expressions, those iconic manga eyes, costumes, character interaction, and story settings, *Manga for the Beginner Chibis* has it all.

Book Information

Paperback: 192 pages

Publisher: Watson-Guptill (March 23, 2010)

Language: English

ISBN-10: 0823014886

Customer Reviews

Have you ever gotten a drawing book, hoping you could learn how to draw some fun things, and then you saw the pictures inside just weren't very good, nothing you would actually want to draw? *Manga for the Beginner Chibis: Everything You Need to Start Drawing the Super-Cute Characters of Japanese Comics* is NOT that kind of book at all! It is chock-full of very professional and super cute drawings, ones that you'd actually want to learn how to draw. If you want to learn more about basic drawing techniques for chibis, or even if you just like to draw cute things -- this book is perfect for you! It is a full-scale drawing book with slick, glossy pages and tons of informative illustrations and explanations, written by acclaimed artist, Christopher Hart, and published by

Watson-Guptill. Chibis are the mini emo characters in manga; the normally-drawn characters often revert to chibi status when they feel strong emotions. The author tells us that chibis are not only fun to draw, but they're easy to draw, too! Author Christopher Hart includes lots of tips, including the very important proportions of chibis, as well as the difference between the shoujo and the shonen styles. There are all kinds of characters throughout the book with instructions for how to draw them, beginning with simple shapes and lines, then adding more detail, and finally, finished in full color. His animal chibis are absolutely adorable and I loved the section on Anthros, when a human and animal meld together, like fox boy or bunny girl. He even makes chibi robots, which are really creative (and cute!). The beautiful chibi fairies have a little different eye shape, and are so stunning, like the lovely snow fairy.
