Customer Reviews

A good friend gave me this book as a gift. It's a great coloring book, beautiful cover, great variety of drawings to color, and single sided so no worries about bleed through even with markers. I'm attaching some of my favorites since I won't let you see inside the book for some reason?? I love the pig with macaroons! So cute.

Share the Love is one of my favorite coloring books now! I absolutely love the whimsical illustrations. They really mixed up a variety of fun coloring pages. From a bunny, a pig, lots of hearts to even word art. I have colored 3 so far and have used watercolor, sharpies and watercolor crayons. The paper can take all these media, just use a light amount of water. All ages will enjoy this book. Teen to Senior. A must have in your coloring book collection. ***** "I received this book as part of a preferred reviewer program for testing and a possible unbiased review"*****

This book is simply amazing! This book helps relieve my stress, being overwhelmed and aggravated. I grab my book sit down and color my worries away. The pages are beautifully created, and they are gorgeous pictures. Attached below is a picture that I'm working on. This book meets all the needs of being a stress reliever."sample provided by company for testing and a possible unbiased review"

This coloring book is fun, ranging from easy large designs to more complex patterns, with the use of both white and light grey background styles. Papeterie Bleu dedicated this book to UBUNTU, which is unique to coloring book products I've used as most don't provide a dedication to increase social awareness to a cause. I've used steady and stabilo markers and a range of gel pens and the paper holds well. Color will bleed through with stabilo (which I assume will occur for pentel and sharpie fine points), so it's best to use a piece of scrap paper to buffer the design directly under the one you are coloring. I've enjoyed coloring in this book, which I received complimentary from their preferred reviewer program. I've attached pics for reference.

It made me so happy to receive this as I received the book for free as part of a preferred reviewer program and I was so happy to get started coloring in it. It's the best adult coloring book I found so far! I'm very happy with the product and will definitely recommend it to anyone! Great shipping also! Came in 2 days with no damage!! added a few pics for a lil preview of what great pics are available inside.

Share The Love coloring book by Papeterie Bleu, a book that I recently received has been a great addition to my ever growing collection! They say that you never know what you're missing until you try it, Share The Love has proven this to be true! Many great pages and a wide variety of prints and patterns! The pages are outlined in dark black and no problem to follow. I have used watercolors, oil pastels, markers and colored pencils in this book and all work great. Papeterie Blue knows just what to add to a coloring book to keep every page exciting to do. People of every age will love the challenge of making each picture their own. I know that I sure have. It's hard to decide to know which page to do next. If you are unsure of which book to add to your collection or to start a collection Share The Love would be a wonderful choice. Papeterie Bleu also has Sugar Skulls at Midnight Vol 1 & 2, & Dia De Los Muertos Sugar Skull coloring books available. They are equally exciting to color. Try one or all of them for your next purchase. "I received this book as part of a preferred reviewer program for testing and a possible unbiased review"

I received this book as part of a preferred reviewer program for testing and a possible unbiased review. When I first saw the cover, I knew I was going to fall in love with this book. The front graphic really spoke to me. As I flipped through the pages browsing, I was right!! The illustrations in this book are well drawn and so adorable. The pictures are a mix between easy to advanced coloring pages. There are a variety of different pictures, so it has lots to choose from depending on what you feel like coloring at the time. The pages are not perforated so if you wanted to take a page out, it would need to be cut. The paper is medium weight, so I would suggest if you plan to use gel pens or markers to put a backing paper behind your image to prevent bleed through. You must see the pages in this book, I think once you do, you won't want to put it down!!! I am enjoying my book to the extreme!

I recently started enjoying coloring recently, as I can enjoy coloring alongside the kids with my own books (or they can share if they like!). This coloring book has such a sweet theme, of love! All of the images are peaceful and have such cute themes. The cover is so pretty and has a nice finish to it - the book is really inviting just by the cover itself! There is a great variety inside, from a couple kissing to cute animals. Although I definitely like some images more than others, and some are kind of quirky, I like have the variety to choose from and that the images can be a little different. The paper is nice white paper and it is truly relaxing to color these images. I like finding something to suit my mood. I received this book in exchange for my honest review.
