Pop Manga: How To Draw The Coolest, Cutest Characters, Animals, Mascots, And More

Synopsis

Renowned manga artist and comics creator Camilla d'Errico's beginner's guide to drawing her signature Japanese-style characters. From comics to video games to contemporary fine art, the beautiful, wide-eyed-girl look of shoujo manga has infiltrated pop culture, and no artist's work today better exemplifies this trend than Camilla d'Errico's. In her first instructional guide, d'Errico reveals techniques for creating her emotive yet playful manga characters, with lessons on drawing basic body construction, capturing action, and creating animals, chibis, and mascots. Plus, she gives readers a behind-the-scenes look at her character design process, pointers on creating their own comics, and prompts for finishing her drawings. Pop Manga is both a celebration of creativity and an indispensable guide that is sure to appeal to manga diehards and aspiring artists alike.

Customer Reviews

I wanted to incorporate some Manga elements into some of my cartooning, so I picked up this book along with four others. This seems like one of the best. A few pros/cons Pros:- To start with, the book is gorgeous. There's tons of color and great illustrations. The physical quality of the paper and the printing is excellent as well. You could almost leave it out as a coffee table book.- Strikes a good balance between starting at the beginning and talking down to the reader. Some of the books I've found (even beginner ones) assume skills that aren't really universal. Others seem to want to start by explaining what a pencil is. This one started at the beginning but was challenging.- There is a nice progression. The book takes you through various aspects of a finished drawing piece by piece, breaking it down in a very logical way.- Includes some very cool topics not really approached in

other books. Specifically, non humans. It's nice to see them tie some drawing basics into something a lot of other books handle as almost "mysterious."- The drawings in this book seemed much more polished than those in some of the other books. It's hard to describe exactly what i mean, but in some of the others, the end product is more "cartoony" than I would have liked. Sort of a silly criticism to make of a book about Manga, but it's the best way I can describe the difference. A lot of other books have artwork that just seems flat.Cons:- I say this about every single drawing book, so I don't take stars off for it, but why can't they make these coil/spiral binds? Every single person using this book is going to want to have it open while they have their hands busy with the lesson they are working on at the time, why not set it up to lie flat.
