# Selected Studies: For Saxophone (Rubank Educational Library)

## **Synopsis**

(Woodwind Method). For all saxophones These excellent studies are the next step for students who have completed the advanced level method for their instrument. The full-page etudes in this series, key-centered and supported by scale and arpeggio exercises, take the student to that next level of performance wherein their accumulated skills allow them to play full-length performance pieces with a high level of musicianship and competence. As such, many states include these pieces in their all-state audition lists.

## **Customer Reviews**

This is a must-have for ALL sax players young or old. It is a large collection of passages that help the player develop in many areas. It's the perfect applied practice book for high school, and it's a good book to keep in shape or warm up for college level playing. There are many different kinds of pieces in many different keys, with various runs, arpeggios etc. built into the music.

Excellent Rubank Selected Studies - Saxophone music book! Kids enjoy challenging themselves and this book is the next step in their music journey. Quick processing and shipping, very pleased with purchase.

This is great for building technique and other minor things when playing. It has etudes in every

single key major, and minor, i highly recommend this book and the 48 Famous studies and 3 duos concertants for oboe or saxophone

It's a good study guide. You must have a very pronounced ability to use your instrument to tackle some of the more advanced lessons available. But it's a good lesson guide and I recommend it to all serious musicians.

I bought it for my saxophone repertoire! I love it. It has really gave me something to practice on when I'm bored of the old things i have. I PROMISE IT'S TOTALLY WORTH BUYING FROM THIS SELLER! FORGET IT'S PAPER COVER, WHAT YOU WANT IS THE ETUDES INSIDE!

I bought this book for my applied woodwind lesson and it was in great condition. This book has definitely helped me improve my playing skills.

this book uses etudes in every key both major and minor. at the back are all scales and intervals and chords.this book gets advanced very quickly. good book over all , but NOT for beginners.

Great book, with plenty of challenging selections to choose from (high school students, especially.) The cover, however, starts to fade away a bit after extensive carrying but that's fine.
